The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the screen is guided in guides provided with sill and header as recited in claim 2, lines 1-2 and grooves disposed adjacent to the header and sill framing section as recited in claim 10, lines 1-2, must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claims 1, 2, and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. There is a lack of antecedent basis for the following: In claim 1, lines 3-4, "said jamb pocket" (—said jamb pocket portion—), in line 3, "the interior"; In claim 2, line 3, "the manufacture"; In claim 10, line 2, "the header and sill framing sections"; In claim 10, line 3, "the screen cassette assembly"; In claim 10, line 6, "the screen roller", "the pocket", and "the frame". In claim 1, line 5, the phraseology "available as desired" is not readily understood by the Examiner.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless —

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

As best understood, claims 1, 2, and 10 are further rejected under 35 U.S.C. 102(b) as being anticipated by Johnston. Johnston discloses a "window assembly" having a jamb pocket assembly (header (15), sill (14), and a pair of jambs (12 and 13)), a retractable spring biased screen assembly comprising a screen (11) wherein the screen is guided within guides.

Applicant's arguments with respect to claims 1, 2, and 10 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication should be directed to Jerry Redman at telephone number 703-308-2120.
